

All Councils must write a Training Plan. The purpose of the training plan is to set out requirements for the provision of training so it can be carried out in a proportionate way, taking into account factors such as the activities undertaken by that council, the current expertise of councillors and clerks and the nature and significance of any training needs identified.

There are areas which all councils should ensure that they have sufficient skills and understanding.

These are:

- Basic induction for councillors
- The Code of Conduct for members of local authorities in Wales.
- Financial management and governance.

In addition to these areas, the council will want to consider if there are new challenges and opportunities it may wish to explore, such as those offered by the general power of competence. In which case, it may decide there are new skills for councillors and clerks to attain.

The plan should provide, as a minimum, information about:

- The type of training,
- Numbers participating
- The timeframe over which the training is expected to be completed
- The overall cost of the training.

A new plan needs to be written after each set of full elections and reviewed regularly.

The first training plan must be completed and published by 5 November 2022.
